### All Our Projects

#### Modern Office Complex

State-of-the-art office building with sustainable design

#### Residential Tower

Luxury residential complex with premium amenities

#### Shopping Mall

Modern retail space with innovative architecture

The screenshot shows the homepage of the Civil Contractors website. At the top, there's a dark header bar with the logo "Logo Civil Contractors" on the left and navigation links "Home", "About Us", "Projects", "Services", and "Contact" on the right. Below the header is a large purple section titled "Our Achievements". This section contains four cards with icons and statistics: a person icon for "Satisfied Clients" (25+), a project icon for "Projects Completed" (35+), a building icon for "Sq.Ft. Constructed" (310K+), and a gear icon for "Years Experience" (15+). The footer of the page is white with a dark blue bar at the bottom containing copyright information.

The screenshot shows the "Contact Us" page of the Civil Contractors website. The header is identical to the homepage. The main content area has a white background with a purple header bar. On the left, there's a large "Contact Us" heading. To the right, there are two columns: "Address & Info" which lists address, phone number, email, and working hours, and "Quick Links" which includes a "Home | About | Projects" link and social media icons for Facebook, Instagram, LinkedIn, and Twitter. The footer is a dark blue bar with copyright text.

## Web 2

The screenshot shows the homepage of the SecureDiary website. At the top, there's a blue header bar with the "SecureDiary" logo, a navigation menu (Home, Features, Security, Login), and a "Get Started" button. Below the header is a large blue section with the heading "Your Personal Diary, Completely Secure" and a subtext: "Store your thoughts, memories, and secrets with military-grade encryption. Your diary is for your eyes only." It also features two buttons: "Get Started" and "Learn More". To the right of this is a "Security Features" box listing five items: Military-Grade Encryption, Secure Password Storage, SQL Injection Protection, and XSS Protection. Below this is a white section titled "Why Choose SecureDiary?" with the subtext "Your personal thoughts deserve the highest level of security". It contains three cards: "Military-Grade Encryption" (with a shield icon), "Secure Password Storage" (with a key icon), and "Private & Personal" (with a lock icon). The "Private & Personal" card includes a note: "Your diary is completely private. Only you can access your entries with your personal login credentials." Further down is a section titled "Our Security Measures" with four items: Password Hashing, Content Encryption, SQL Injection Prevention, and XSS Protection. To the right is a "Security Checklist" section with five items: Secure Password Storage, Encrypted Diary Content, SQL Injection Protection, XSS Protection, and Session Security. At the bottom is a green section with the heading "Ready to Secure Your Thoughts?", a subtext "Join thousands of users who trust SecureDiary for their personal journaling needs.", and "Create Account" and "Login" buttons.

**SecureDiary**

Home Features Security Login

**Your Personal Diary, Completely Secure**

Store your thoughts, memories, and secrets with military-grade encryption. Your diary is for your eyes only.

Get Started Learn More

**Security Features**

- Military-Grade Encryption AES-256-CBC encryption for all diary entries
- Secure Password Storage Advanced hashing with bcrypt algorithm
- SQL Injection Protection Prepared statements for all database queries
- XSS Protection Input sanitization and output escaping

**Why Choose SecureDiary?**

Your personal thoughts deserve the highest level of security

**Military-Grade Encryption**

Your diary entries are encrypted using AES-256-CBC, the same standard used by financial institutions and government agencies.

**Secure Password Storage**

Your passwords are never stored in plain text. We use advanced hashing algorithms to ensure your account remains secure.

**Private & Personal**

Your diary is completely private. Only you can access your entries with your personal login credentials.

**Our Security Measures**

- Password Hashing**  
We use PHP's built-in password\_hash() function with the PASSWORD\_DEFAULT algorithm, which currently uses bcrypt with a cost factor of 10.
- Content Encryption**  
All diary entries are encrypted using AES-256-CBC encryption with a secure random initialization vector (IV) for each entry.
- SQL Injection Prevention**  
We use prepared statements to prevent SQL injection attacks, ensuring your data remains secure from malicious queries.
- XSS Protection**  
All user input is properly sanitized and escaped to prevent cross-site scripting (XSS) attacks.

**Security Checklist**

- Secure Password Storage  
Passwords are hashed using bcrypt with a cost factor of 10
- Encrypted Diary Content  
AES-256-CBC encryption with secure random IV
- SQL Injection Protection  
Prepared statements for all database queries
- XSS Protection  
Input sanitization and output escaping
- Session Security  
Secure session management with proper timeout

**Ready to Secure Your Thoughts?**

Join thousands of users who trust SecureDiary for their personal journaling needs.
