

YASHASVI PATEL

FULL STACK ENGINEER

+91 9016109968 | yashasviwpatel08@gmail.com | Gujarat, India | [linkedin.com/in/yashasvi-patel08](https://www.linkedin.com/in/yashasvi-patel08)

SUMMARY

Full-stack engineer with hands-on experience building responsive, user-centric web and mobile applications across JavaScript, ReactJS, PHP, and Node.js. Comfortable working across the stack from REST APIs and database design to polished frontend interfaces — and experienced using AI tools (ChatGPT, Claude, Cursor, Copilot) to accelerate development and streamline workflows. Strong foundation in secure application design, cross-platform development, and translating business requirements into practical, scalable solutions. Adaptable, collaborative, and eager to contribute to AI-powered product development in a fast-paced team environment.

SKILLS

Languages & Core: JavaScript, Java, PHP, C, C++, Dart

Frontend: ReactJS, HTML5, CSS3, Responsive Design, REST APIs, UI/UX Fundamentals

Backend & Data: Node.js, PHP, MySQL, MongoDB, SQL, Authentication & Cryptographic Hashing (SHA-256, bcrypt)

AI-Assisted Development: ChatGPT, Gemini, Claude, OpenAI, Cursor, GitHub Copilot, Prompt Engineering

Tools & Practices: Git, GitHub, Figma, WordPress, EmailJs, Agile Development, Requirement Analysis, Documentation, Team Collaboration

EXPERIENCE

Lightning Cognitions — Jr. Web Developer (Internship)

2025 – 2026

- Developed and enhanced a responsive business website, improving design consistency, content organization, and overall user experience to strengthen the client's online presence.
- Applied modern web development practices to iteratively improve site performance and usability, collaborating on requirements and feedback cycles.

PROJECTS

Secure Diary Web Application

2024 – 2025

- Built a privacy-focused web application implementing authentication and cryptographic hashing (SHA-256, bcrypt) to protect sensitive user data.
- Developed a responsive, user-friendly interface with HTML, CSS, and JavaScript, focused on secure, reliable data handling.

Clothing Store E-Commerce Website

2023 – 2024

- Built a full-stack e-commerce website using PHP, HTML, and CSS, covering product display, navigation, and a user-friendly browsing experience.
- Strengthened end-to-end understanding of frontend/backend integration and scalable page/data structuring.

All-In-One Converter (AOC) — Cross-Platform App

2023 – 2024

- Built a cross-platform mobile app in Flutter combining multiple utility tools (BMI, Percentage, and Tax calculators) behind one intuitive interface.
- Focused on efficient, modular functionality — a workflow-automation mindset applicable to building intelligent, multi-feature product tools.

Brain Tumor Prediction Application

2022 – 2023

- Contributed to an Android app applying prediction logic to medical imaging data, using Java and Android Studio.
- Assisted in designing application features and UI components, gaining early exposure to applied AI/ML-driven products.

EDUCATION

Uka Tarsadia University — B.Tech, Computer Science & Engineering

2023 – 2026

SGPA: 10.00 | CGPA: 8.9

Jayvantrai Harrai Desai Polytechnic — Diploma in Computer Engineering

2020 – 2023

CGPA: 8.93

ADDITIONAL

Portfolio: yashasvidevop.github.io/PORTFOLIO_Y | GitHub: github.com/yashasvidevop

Strengths: Problem Solving, Communication, Team Collaboration, Adaptability, Continuous Learning
