Gujarat, India.

www.linkedin.com/in/yashasvi-patel08

Computer Science Engineering graduate with experience in full-stack web development, modern frontend technologies, database management, and AI-assisted development. Proficient in HTML, CSS, JavaScript, ReactJS, PHP, MySQL, Git, and WordPress, with hands-on experience delivering real-world web solutions. Strong analytical, communication, and collaboration skills with a growth mindset, adaptability, and a commitment to continuous learning in fast-paced technology environments.

EDUCATION

2020 - 2023

JAYVANTRAI HARRAI DESAI POLYTECHNIC

Diploma in Computer Engineering

CGPA: 8.93

2023 - 2026

UKA TARSADIA UNIVERSITY

BTech in Computer Science and Engineering

SGPA: 10.00

CGPA: 8.9

SKILLS

- Languages: **Java, JavaScript, C, C++, Dart, PHP**
- Frontend: **HTML5, CSS3, JavaScript, ReactJs, Responsive Design, REST APIs**
- Backend: **PHP, Node.js**
- Databases and OS: **MySQL, SQL, MongoDB**
- Tools & Platforms: **Git, GitHub, MS Word, Excel, Figma, Wordpress, EmailJs, Canva**
- OS: **Windows, Linux**
- AI Tools: **ChatGPT, Gemini, Claude, OpenAI, Cursor, Copilot**
- AI Skills: **Prompt Engineering, AI-Assisted Development**

Other Skills

- UI/UX Fundamentals
- Problem Solving
- Team Collaboration
- Communication Skills
- Documentation
- Requirement Analysis
- Agile Development

ACADEMIC PROJECTS

Project 1: Brain Tumor Prediction Application 2022-23

Contributed to the development of an Android-based Brain Tumor Prediction application using Java and Android Studio. Assisted in designing application features and user interface components while gaining hands-on experience in Android development and software implementation.

Project 2: Clothing Store Website 2023-24

Developed a responsive e-commerce clothing store website using PHP, HTML, and CSS. Designed product display pages, navigation features, and a user-friendly interface to enhance the browsing experience. This project strengthened my understanding of frontend and backend web development concepts.

Mini Project: All-In-One Converter (AOC) 2023-2024

Built a cross-platform mobile application using Flutter that integrates multiple utility features, including BMI Calculator, Percentage Calculator, and Tax Calculator. Focused on creating an intuitive user interface and efficient functionality, which enhanced my understanding of mobile application development and user-centric design.

Mini Project: Secure Diary Web Application 2024-25

Designed and developed a secure web-based personal diary application focused on user privacy and data protection. Implemented authentication and cryptographic hashing techniques using SHA-256 and bcrypt to secure sensitive information. Utilized HTML, CSS, and JavaScript to create a responsive and user-friendly interface while gaining practical experience in secure web application development.

Internship: Lightning Cognitions As a Jr. Web Developer 2025-2026

Developed and enhanced a responsive business website during my internship as a Junior Web Developer. Worked on website design improvements, content organization, and user experience optimization to strengthen the client's online presence while applying modern web development practices.

Professional Attributes

Adaptable and growth-oriented professional with a strong interest in emerging technologies and continuous learning. Comfortable working in collaborative environments, understanding business requirements, and translating ideas into practical solutions. Demonstrates initiative, accountability, and a problem-solving mindset while contributing effectively to team goals and project success.
